🧠 INTERESTS

📁 PROJECTS

Cloned - Ketto (2021)

Designed a well known crowdfunding platform where any individual across the country can raise funds for causes ranging from medical healthcare to disaster relief.

- **Tech Stack** : React, JavaScript, CSS.
- **Areas of Responsibility:-**
- Focused on building Donation-page where user can donate easily.
- Fundraising-page, Trending-fundraisers, with plethora of functionality.
- **Collaborative Project**- Developed with three more developers within four days.

Cloned -Tripoto (2021)

Designed a well- known website which is a travel community and travel search engine portal based on user-generated content. It allows users to write travel stories and discover those written by other travelers.

- **Tech Stack** : HTML, CSS, JavaScript.
- **Areas of Responsibility:-**
- I was the project leader focused on building Hotel Booking Page, Payment option, Landing Page, Carousel, Travel News Page, Trending Trips Page with a plethora of functionality and also managed git version control and GitHub.
- **Collaborative Project** - Developed with two more developers within a week.

Cloned - Codecov (2021)

Designed a static website Codecov a tool that is used to measure the test coverage of your codebase. It generally calculates the coverage ratio by examining which lines of code were executed while running the unit tests.

- **Tech Stack** :HTML, CSS, JavaScript
- **Areas of Responsibility:-**
- Focused on building a pixel-perfect clone.
- **Collaborative Project** - Developed with three more developers within three days.
